VISION

Being a contributing member of an experienced team with clear objectives to create meaningful solutions.

SUMMARY

Experienced frontend developer with keen eye for functional and aesthetic design. Competent team player and deadline-meeter. Advocate of meaningful work and data driven solutions. Known for the continuous pursuit of improvement and strong organizational skills.

EXPERIENCE & EDUCATION

KREJTA solutions s.r.o. | 2022 - 2024
Full-time | Frontend developer

I utilized my abilities of a Developer and a Designer to create custom web solutions. I had experience in execution of every step of the development process, from mapping site structure through wireframes, designing to development and deployment. Outside of my standard responsibilities, I strived to innovate production and task management processes inside the agency.

Cread Digital | 2019 - 2022
Full-time | Frontend developer, Graphic designer

As a former Graphics designer I was responsible for creation of original graphic content for client's websites, advertising platforms, social media channels and print publications. Within the year of my employment I transitioned into role of Frontend developer in which I designed and developed presentation websites and Woocommerce based e-shop for small businesses.

Rangl Advertising | 2017 - 2018
Internship | Graphic designer

While interning at a local advertising agency, I was involved in the production and implementation of various print media.

Vocational Secondary School | 2014 - 2018
Graduate | Graphic design of Digital media, SOŠE Trnava

I graduated from Vocational Secondary School with a professional focus on technologies in the field of digital media and polygraphy.
